## **7. Minimum Payment Example**

### **2<sup>nd</sup> Lien Payment Option 1 – 5/15 Plan**

If you took a single \$10,000 advance at an **ANNUAL PERCENTAGE RATE** of 5.25% (the most recent index plus margin shown in the Historical Table), it would take 240 months to pay off your account. During that period you would make 60 monthly payments of \$43.75 followed by 180 monthly payments of \$80.39.

### **2<sup>nd</sup> Lien Payment Option 2 – 10/10 Plan**

If you took a single \$10,000 advance at an **ANNUAL PERCENTAGE RATE** of 5.25% (the most recent index plus margin shown in the Historical Table), it would take 240 months to pay off your account. During that period you would make 120 monthly payments of \$43.75 followed by 120 monthly payments of \$107.30.

### **1<sup>st</sup> Lien Payment Option 1 – 5/10 Plan**

If you took a single \$10,000 advance at an ANNUAL PERCENTAGE RATE of the 5.25% (the most recent index plus margin shown in the Historical Table), it would take 240 months to pay off your account. During that period you would make 60 monthly payments of \$43.75 followed by 180 monthly payments of \$80.39.

### **1<sup>st</sup> Lien Payment Option 2 – 10/15 Plan**

If you took a single \$10,000 advance at an ANNUAL PERCENTAGE RATE of 5.25% (the most recent index plus margin shown in the Historical Table), it would take 300 months to pay off your account. During that period you would make 1200 monthly payments of \$43.75 followed by 180 monthly payments of \$80.39.

8. **Fees and Charges.** In order to open and maintain a line of credit, you must pay certain fees and charges as follows:
  - a. **Credit Union Fees.** None
  - b. **Third Party Fees.** If your line of credit limit exceeds \$100,000 at the time your line of credit is established, you must pay certain fees to third parties. These fees generally range between \$1,500 and \$2,500. If you ask, we will give you an itemization of the fees you will have to pay third parties in such event.
9. **Transactions Requirements.** We require an initial draw (advance) at the time you establish your line of credit account. There is a minimum draw requirement of \$4,000 for each advance.
10. **Tax Deductibility.** You should consult a tax advisor regarding the deductibility of interest and charges under the line of credit.
11. **Property Insurance.** We will require that you carry insurance coverage on the property that secures your line of credit.
12. **Variable Rate Feature.** The line of credit has a variable rate feature, and the annual percentage rate (corresponding to the periodic rate) and the minimum payment can change as a result. The annual percentage rate does not include costs other than interest.

The annual percentage rate is based on the value of an index. The index is the Prime Rate as published in the Money Rates Section of the Wall Street Journal. We will use the most recent index value available to us as of 15 days before the date of any annual percentage rate adjustment. To determine the annual percentage rate that will apply to your line of credit, we add a margin to the value of the index. To determine the annual percentage rate, we take the index and round up to the nearest .125% and add the margin.

The initial annual percentage rate may be “discounted.” If this discount is in effect, the initial annual percentage rate will not be based on the index and margin used for later adjustments. Such discounted annual rate may be in effect for as long as the first 6 months your credit line is open. Ask us for the current index value, margin, discount or premium, and annual percentage rate. After you open a credit line, rate information will be provided on periodic statements that we will send you.

**13. Rate Changes.** The annual percentage rate is subject to changes quarterly. Any changes will be effective on the 1<sup>st</sup> day of January, April, July and October. An increase in the index will result in an increase in the periodic rate which, in turn, will result in higher payments. A decrease in the index will have the opposite effect. In any event the daily periodic rate will never be less than a daily periodic rate with a corresponding ANNUAL PERCENTAGE RATE of 3.00%, and it will never be greater than a daily periodic rate with a corresponding ANNUAL PERCENTAGE RATE of 18%. Apart from this rate “floor” and this rate “cap”, there is no limit on the amount by which the rate can change during any 1 year period.

#### **14. Maximum Rate and Payment Examples**

##### **2<sup>nd</sup> Lien Payment Option 1 – 5/15 Plan**

If you had an outstanding balance of \$10,000 during the Draw Period, the minimum monthly payment at the maximum ANNUAL PERCENTAGE RATE of 18% would be \$150. This maximum annual percentage rate could be reached during the 1<sup>st</sup> month of the Draw Period.

If you had an outstanding balance of \$10,000 at the beginning of the Repayment Period, the minimum monthly payment at the maximum ANNUAL PERCENTAGE RATE of 18% would be \$161.05. This maximum annual percentage rate could be reached during the 1<sup>st</sup> month of the Repayment Period.

##### **2<sup>nd</sup> Lien Payment Option 2 – 10/10 Plan**

If you had an outstanding balance of \$10,000 during the Draw Period, the minimum monthly payment at the maximum ANNUAL PERCENTAGE RATE of 18% would be \$150. This maximum annual percentage rate could be reached during the 1<sup>st</sup> month of the Draw Period.

If you had an outstanding balance of \$10,000 at the beginning of the Repayment Period, the minimum monthly payment at the maximum ANNUAL PERCENTAGE RATE of 18% would be \$180.19. This maximum annual percentage rate could be reached during the 1<sup>st</sup> month of the Repayment Period.

##### **1<sup>st</sup> Lien Payment Option 1 – 5/15 Plan**

If you had an outstanding balance of \$10,000 during the Draw Period, the minimum monthly payment at the maximum ANNUAL PERCENTAGE RATE of 18% would be \$150. This maximum annual percentage rate could be reached during the 1<sup>st</sup> month of the Draw Period.

If you had an outstanding balance of \$10,000 at the beginning of the Repayment Period, the minimum monthly payment at the maximum ANNUAL PERCENTAGE RATE

of 18% would be \$161.05. This maximum annual percentage rate could be reached during the 1<sup>st</sup> month of the Repayment Period.

**1<sup>st</sup> Lien Payment Option 2 – 10/15 Plan**

If you had an outstanding balance of \$10,000 during the Draw Period, the minimum monthly payment at the maximum **ANNUAL PERCENTAGE RATE** of 18% would be \$150. This maximum annual percentage rate could be reached during the 1<sup>st</sup> month of the Draw Period.

If you had an outstanding balance of \$10,000 at the beginning of the Repayment Period, the minimum monthly payment at the maximum **ANNUAL PERCENTAGE RATE** of 18% would be \$161.05. This maximum annual percentage rate could be reached during the 1<sup>st</sup> month of the Repayment Period.

15. **Historical Example.** The following table shows how the annual percentage rate and the minimum monthly payments for a single \$10,000 credit advance would have changed based on changes in the index over the past 15 years. The index values are from the last business day of July each year. While only one payment amount per year is shown, payments would have varied during each year.

The table assumes that no additional credit advances were taken, that only the minimum payments were made each month, and that the rate remained constant during each year. It does not necessarily indicate how the index or your payments will change in the future.
